

INTERVIEW COACHING WORKSHOP

YOUR SUCCESS IS OUR SUCCESS!

“Regardless of the role, the interview and culling process is the same. Within 30 seconds flat, I will cull resumes based on their appearance and at interview I usually know within the first few minutes if the candidate is a potential match for the role. It is my job to ask the hard questions and I am often surprised at how often candidates fail to answer the question adequately”

Presented by Rebecca Stewart - Senior Resume Writer & Career Consultant

Rebecca has been working in the career industry, in particular the preparation of career related documentation for in excess of 13 years. To date Rebecca has assisted 1000's of clients in developing documents and preparing for interviews, which is the first and vital step in achieving your individual career goals. Rebecca provides an insight into how the recruitment industry works, the Government application process, pre and post interview hints and educates on what an interviewer is looking for and wants to hear from you at interview. Available on the night is an opportunity to interact with other participants in a mock interview style coaching session!

Consider some of our other workshops.....

Communication Skills

Subjects include body language, self confidence and how to overcome 'self limiting beliefs' which are a major contributor in determining whether you will fail or succeed in the interview. This workshop covers body language techniques, useful tips on how to boost self esteem and self confidence. How can you expect a potential employer to hire you, if you are not confident in yourself and your own abilities?

Your Financial Future

On hand to answer your financial questions and how to best manage your money, Rod is an industry specialist whose clients include families with young children, singles and seniors. Rod is an expert on the subject of money and finances, providing financial advice to clients dealing with unexpected life hurdles such as death, disability, unemployment and redundancy. We all go to work each day to earn money in order to meet our responsibilities, therefore this practical workshop is designed to ensure every cent you earn is worth its weight in gold!
